

It's just a USB2-HS hub.
It has leds and per port power switching though,
and it has a case, and can be cascaded.
No SMAs though :(

upstream-config-leds

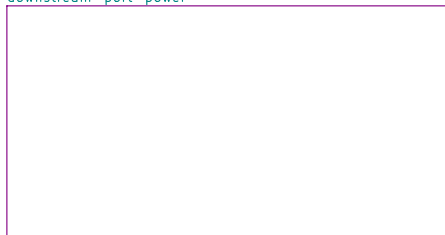

File: upstream-config-leds.sch

Feeling uppitty, into configuration
and the world at large?

downstream-port-power

File: downstream-port-power.sch

Feeling down, feeling like power
switching and chunks of metal?

github.com/karlp/hubbish one up, one down three double ports for test targets w/ user usb intended for controlling libopencm3 regression test boards		
Sheet: / File: usb-test-harness.sch		
Title: Hubbish: Cascading per port controllable USB hub
